

CREATION OF DATA MODULE AND DASHBOARD

The screenshot shows a web browser window with the URL `us1.ca.analytics.ibm.com/bi/?perspective=createBoard`. The browser's address bar and tabs are visible at the top. Below the browser window is the IBM Cognos Analytics interface. The header bar is dark with the text "IBM Cognos Analytics with Watson" on the left and "Create dashboard" with a dropdown arrow in the center. On the right side of the header, there are icons for a notification bell (with a red "1"), a help icon, a search icon, and a user profile icon. The main content area is titled "Create a dashboard" and includes a subtext "Select a template for your dashboard". To the right of this text are two buttons: "Cancel" (dark gray) and "Create" (blue). Below the text, there are two tabs: "Tabbed" (selected) and "Infographic". The "Tabbed" tab displays a grid of six dashboard templates. The first template in the top-left corner is highlighted with a blue border and a small checkmark icon in its top-right corner. The other five templates are shown with dashed borders, indicating they are not selected. The bottom of the image shows a Windows taskbar with various application icons and a system clock displaying "12:19 PM 11/7/2022".
